

April 2018

Dear Colleague,

We are pleased to share the Cambridgeshire and Peterborough Safeguarding Adults Board's Self-Neglect Resource pack with you.

The pack contains:

- Leaflet: Do you have concerns? – for members of the public
- Poster: Self-Neglect – for professionals
- Self-Neglect Guidance Summary - for professionals who deliver health and care services in Primary Care or in the community
- Presentation: Self-Neglect and Safeguarding – Working Towards Positive Outcomes
- Presentation: Self-Neglect – Understanding the Challenges for Workers - An Aide for Managers
- Cambridgeshire and Peterborough Multi-Agency Policy and Procedures to support People Who Self-Neglect
- Cambridgeshire and Peterborough Protocol for Working With People with Hoarding Behaviours
- Social Care Institute for Excellence - Self-neglect policy and practice, research messages for managers

The resource pack was put together taking into account some of the learning from the Peterborough Self-Neglect conference in September 2015 – including how much time and effort is needed to ensure a good outcome.

It is hoped that you will find this resource pack helpful; and through its distribution and use, perhaps as part of your training programme or in team meetings, we can ensure that a consistent message around self-neglect is shared across Cambridgeshire and Peterborough.

Kind regards

Dr Russell Wate QPM MSc

Independent Chair of Peterborough Safeguarding Adults Board
